Schoenbaum selected as class valedictorian

Thomas Schoenbaum, a philosophy major, has been named as the valedictorian of the graduating class of '61 by the Academic Senate.

Tom, a resident of River Forest, Ill., attended Fenwick high school. There he was active in both academie and extracurricular activities and athletics.

While at Fenwick he worked on Fenwick's student paper, THE WICK, all four years, and the last two years he also worked on the school's yearbook. During his high school career he was made a member of the National Honor Society.

Tom was one of the stalwarts of Fenwick's track team. For his efforts he earned a varsity track letter and was made captain of the team.

At St. Joe's Tom has continued to be an active student. He has often been on the Dean's List. He was a member of the Debate team and of the Columbian Players, and is now associate editor of Measure. Last year he was elected to Delta Epsilon Sigma honor fra-

TOM SCHOENBAUM

ternity.

Tom has gone out for the college track team yearly, and has been awarded a track letter and sweater.

Last March Tom was awarded a three year National Defense scholarship for graduate study in philosophy at Marquette University. He has turned this offer down because he has decided to go to law school after his graduation from St. Joseph's.

Mudd, Andorfer, Trapp and Lulewicz installed as SC heads

Denny Mudd, Paul Andorfer, Ray Trapp, and John Lulewicz, the new St. Joe Student Council, began official functions at the Council's May 15 meeting.

The meeting began at 7:45 p.m. in Merlini lounge. Al Hanley, outgoing president, opened the meeting, and after clearing up brief old business, turned the meeting over to Mudd, the new president.

Both Mudd and moderator Mr. Flynn thanked the outgoing council and expressed hope for closer Council-student-administration coopera-

tion in the future. Richard Rosswurm was presented as the new Inter-club chairman.

Next year's class officers were also introduced They are: seniors, Larry McKay, president, Tony Rosich, vice president, Tom Moloney, secretary, Joe Richard, treasurer; juniors, John O'Connor, president, Mike Gatton, vice president, Bill Vaught, secretary, Emil Labbe, treasurer; sophomores, Paul Lothrop, president, Joe Gugliotta, vice president, Jim Ford, secretary, Frank Harmon, treasur-

The remainder of the meeting was spent in discussing a wide variety of plans for (Continued on Page Four)

Senior election run-offs finished

The election of senior class officers was completed last Friday in a run-off ballot for the offices of president, vice president and treasurer.

Larry McKay was elected senior class president over Matt Walsh (85-60); Tony Rosich defeated El Eschman and Dan Lisak (71-51-23) for the vice president's position; and Joe Richard beat Tony Puoci (90-54) for the treasurer's post.

In the intital ballots cast on Wednesday, May 10, Tom Moloney gained the office of secretary by defeating Pat Bartholomy (106-41).

Name new, returning, promoted SJ profs

St. Joe will see many new faces next fall, and they won't all be student faces either. Several new teachers in a variety of fields have contracts with the college, effective next semester.

Mrs. Lucille Winter, instructor of elementary education, received her bachelor's and master's degrees at Indiana State. Although she has done substitute teaching, this will be her first college teaching assignment. Her husband is the superintendent of the St. Joe

farm. They have three sons and three daughters.

Dr. Joseph Curran, instructor of history, comes to St. Joe from Fordham University. He received his master's and doctor's degrees from the University of Chicago, and was a Fullbright scholar at Queens University in Ireland.

Mr. Peter Kane comes to us from Purdue. He is an assistant professor of speech and a Ph.D. candidate at Purdue. He studied at the University of Oregon on a Kellogg fellowship.

Two professors returning to the St. Joe staff are Fr. Cletus Dirksen and Fr. Joseph A. Lazur. Fr. Dirksen, an associate professor of political science, has been teaching at the St. Joe Extension in East Chicago. He earned his M.A. at Catholic University of America and his Ph.D. at Notre Dame.

Fr. Lazur is an instructor in religion. He received his A.B. at the University of Dayton in 1952, and he recently received a Licentiate degree in Sacred Theology from the University of Laval, Quebec, Canada.

There have also been promotions among the present faculty. Fr. Lechner, Dr. Kreyche, and Dr. Morell were made full professors. Those promoted from assistant to associate professorships include Fathers Gerlach, Kramer, Lucas, McCarthy, Rueve, and Shea, and Mr. Walsh. Fr. Klopke made the step from instructor to assistant professor.

Promotions are determined by any one of three qualities in a teacher: (1) Number of years of service to the college; (2) Excellence in teaching; and (3) productive scholarship (extra work, such as literary or experimental contributions to one's field).

Seven seniors receive offers for scholarships, assistantships

Seven seniors have received offers of either scholarships or assistantships for graduate school as of May 15, the Academic Dean's office reported.

Frank R. Caccamo has been offered a scholarship by the University of Illinois and has been accepted at the University of Chicago and Nor hwestern University. He is an economics major.

Thomas J. Dagon has received offers of assistantships to both Pennsylvania State University and Fordham University. As of yet he has made no decision as to which he will attend. He is a chemistry major.

Robert M. Gallivan has received an offer of an assistantship to Purdue University. He is a chemistry major.

G. Robert Kasky has received

an offer of an assistantship at Indiana University. He is an accounting major.

James McCauley has received and accepted an assistantship at Pennsylvania State University. He had also received an assistantship offer to Syracuse University and scholarship offers to Harvard University, the University of Illinois, and Ohio State University. He is a geology major.

Thomas Schoenbaum has been offered an assistantship at St. Louis University and has a National Defense Scholarship to Marquette University. He is a philosophy major.

William J. Walsh has been of-

fered an assistantship at Villanova University and is an alternate assistantship candidate at Loyola University. He is an English major.

Next year's editors named for 'Stuff', 'Measure'

Next year's editors for Stuff, the campus newspaper, and Measure, the campus literary magazine, were announced this week.

John C. Babione, an Englishjournalism major from Fremont, O., has been appointed editor of Stuff for 1961-62. He will succeed Bill Malley, a graduating English-journalism major from Buffalo, N.Y. Eberhard Gabriel, an English major from Westmont, Ill., and Daniel S. Zawila, an English-journalism major from Memphis, Tenn., have been appointed coeditors of Measure. They will succeed senior English major Bill Walsh who is from Louisville, Ky.

Mike (Y. J.) Thoele, a journalism-social science major from Effingham, Ill., will assume Babione's vacated post of associate editor on the Stuff staff.

All of next year's editors will be juniors. Zawila, in addition to his duties as co-editor of Measure, will continue as layout editor for Stuff, a position he has held for the past year.

The Measure editors were an-

nounced by Fr. Alvin Druhman, the magazine's faculty advisor.

The Stuff editors were announced by Mr. Hugh P. Cowdin, the paper's faculty advisor, at the annual Stuff banquet Thursday night. Mr. James Rasmussen, managing editor of the Gary Post-Tribune, was the guest speaker at the banquet.

'Stuff' editors for 1961, l. to r. Mike Thoele, John Babione, Dan Zawila.

'Measure' editors for 1961, l. to r. Dan Zawila, Eberhard Gabriel.

Prom castle's clothtoMedico

Remember the temporary cloth castle that the Rec hall sported for the prom? The boys in Noll hall remembered it recently when Lois Marek of Northern Illinois university told them that Medico needed cloth for bandages and slings.

After the windstorm of May 7, the castle was severely damaged. The cloth from the castle was taken to the dump. Upon hearing of this, junior Bill Ring rescued the cloth from the dump, stuffed it into Bob Tollick's car, and, with the aid of twenty of his classmates from Noll hall, he washed the cloth in the laundry. The cloth required eight washers.

The cloth was shipped out last week to help Medico in its campaign against disease in the underprivileged nations of the world.

New system should yield more effective prefects

Of the many constructive ideas discussed at Monday's first meeting of the new Student Council, one of the most impressive was the plan, already in effect, by which next year's prefects are being chosen.

The plan, devised by new president Denny Mudd, should correct a basic flaw in the otherwise sound prefect system. The flaw, which produced two noticeable problems this year, is the appointment of prefects who are virtual strangers to their appointers.

In the past, students seeking prefects' jobs merely applied at the Dean of Men's office, and then waited to see whether or not they had been approved. Fr. Schaefer, who selected the prefects, often knew his choices only through their applications.

As a result, several students have been appointed prefects who would not have been had they been better known by Fr. Schaefer. In addition, the lack of effective prefects has necessitated direct disciplinary action by Fr. Schaefer in several halls, with the result that these halls have lost various privileges.

It should never be necessary for Fr. Schaefer to personally enforce discipline in any hall. And with a proper system of a p p o in t m e n t, whereby the new prefects are known to their appointers and impressed with the duties of their job, the prefects will do their jobs better and thus eliminate this necessity.

Mudd's new system should go far toward correcting the weaknesses which have existed, and initiating proper coordination of the halls, through the prefects, by Fr. Schaefer and the Council.

Under the new plan, the applications, which had gone to Fr. Schaefer, are turned in to the Student Council. The officers, along with Bro. Pius, then interview personally each applicant, asking questions designed to test their knowledge of the job of prefect, and their reactions to various prefecting situations.

When all interviews have been completed, the Council tabulates the results, and draws up a list of their recommendations for prefects. This list is then turned in to Fr. Schaefer for his approval or rejection of the individuals listed.

Thus, to become a prefect, a student must be approved by both the

Student Council and Fr. Schaefer. This makes the selection of effective prefects more likely, provides for better knowledge of and control over the prefects by the Council and Fr. Schaefer, and should prevent the occasional unfortunate results of the former system. The result should be a coordinated system of residence halls with proper discipline maintained through a minimum of disciplinary action.

Puma reflections

By JOHN B. GRIFFIN

Ah, sweet Parents' day. Improvements, improvements that we never thought possible. It became quite a point of conversation as to how they (the administration) would pass off those huge chuckholes to the bill-footing Puma parents.

Some students thought they might be passed as temporary excavations or claim that the pocked-marked roadway had broken out with a bad case of acne. All the prognostication went for nothing as the holes were filled in before Sunday.

The north campus is getting to be quite a popular place. In the past whenever a question had arisen and no one could quite decide if it was valid or not it was decided that the action should take place on north campus. So far any impromptu pitch and catch games or general play making has been banished to the far reaches of the north campus.

Now with the advent of good weather many students have taken up sun bathing and the word has come forth that they also must retreat to the north campus.

We now find that Intra-mural football and softball games as well as sunbathing and miscellaneous other activities are now under the wing of the north campus. If it keeps up there may be standing room only out there.

Tony Rosich may be leaving the Glee club. At least there have been murmurs to that affect.

I don't think I realized how many students St. Joe had from the Detroit area. Now it seems that anyone who is fond of Michigan strawberries, ever played Michigan Poker, or heard of the Detroit Purple Gang is claiming the league leading Tigers as their own. But don't accuse them of being fair weather fans or you will never hear the end of it.

The drawing, Future Plans for St. Joseph College, now on display in the library has been the subject of a great deal of comment on campus. Many students have inquired as to the artist who sketched the work.

I have done a bit of research into the matter and have come to a few tentative conclusions. The artist is indeed looking to the future and the ideas proposed would be quite revolutionary and farsighted so I would guess the author to be science fiction writer George Orwell and the real title should be 1984.

This drawing is almost a perfect Utopia, but there is one question still not solved: the biting, always ill wind that blows over Indiana's barren flat lands. Perhaps a wall Yes, that's it—a kind of Great Wall of Rensselaer could be built immediately behind the student parking lot.

Surely a few hundred thousand dollars could be appropriated to make the great wall a reality. With this wall the Pumas could be protected from the wintery blasts. Then the St. Joseph Master Plan would be complete. Yes A wall.

Thinking men prefer

By JOE MURRAY

Throughout the past year student criticism of St. Joe's campus has been plentiful and varied. Within the realm of possibility, what changes or improvements would you like to see on the campus when you return in the fall?

Mike Hemmerling, sophomore, Riverdale, Ill.

The high scholastic rating desired by those interested in St. Joe's necessitates the need for a complementary campus appearence. Because the distinguishing factor between an average campus and a beautiful campus is detail, the changes needed here at school are not insurmountable.

In the coming summer months, I would like to see the gazebo on the main campus

Council Critique

By MARTY WATERS

This has been an unusual year for the Student Council. It has been an in between year, a year in which not many tangible results have been achieved in the matter of improving life in general on campus. A number of students have complained. They have asked, "What has the Council done for me?" They usually answer their own question (without investigating)—"Nothing." Thus, these people hung a convenient "do nothing" label on their Council. This, as is the case with most labels, is misleading.

In a previous column I mentioned some of the areas in which the Council attempted unsuccessfully to expand. This lack of success was mainly due to a haphazard approach to most problems. There usually was a concensus that something should be done and then something was half done with a result that pleased no one.

However, steps were taken in the right direction. Perhaps they were the wrong steps, but this should not be a source of discouragement. When this year's Council took over, there was a feeling that everything was not quite right in the school, but no one was quite sure what the problem was.

In the course of the year the problems crystallized and the members of the new Council have come up with some concrete and practical ideas for next year. I would like to mention some of the ideas that I think are particularly good.

Two of these ideas are concerned with clubs. The first is a tutoring program conducted by the academic clubs. The second is the club weekend. It is my belief that clubs are becoming more and more important on this campus. The school is now too large for students to express themselves without some smaller body providing the means to do this. Effective clubs can fill this void.

More drastic is the proposed expansion of the Council's voting members. It is high time for this. As the new Council president said, the present constitution was designed for six hundred students. The enrollment of the school is now nearly double that. Consequently, students complained that they had no voice in their student government. The new constitution should remedy the structural problem. The rest is up to the students.

These are only a few manifestations of the growing awareness of problems at St. Joseph's. Possibly they are not the most important, but they are the most tangible.

However, no problem can be solved unless the problem is first located. Not too many were solved by this year's Council, but many were located and defined. This fact should be appreciated, and so should this year's Student Council. road repaired and painted. The campus roads should be adequately repaired and curbs should be put in. I also think the parking area by Halas hall should be enlarged.

Finally, I think a campus improvement committee should be set up. This committee would present, periodically, to the proper college officials a list of improvements that could be undertaken to improve the campus.

Daniel O'Shea, freshman, Leroy, N.Y.

It seems that of late any improvement brought up for discussion and possible later application has been rebuffed or turned down by some faction of the school. Those improvements that have been accepted still ring with restraint. I would like to ignore them at the present time and express what I think is the basic issue.

It seems to me that the most necesary improvement that should be made at St. Joseph's college is an improvement of the attitudes on the part of these factions: the administration, the faculty, Student Council and student body.

In other words, I propose the transition from the conditions present here which resemble that of a high class preparatory school to the aims which the college seems to advocate in their brochures. With an improvement of attitude by the groups mentioned, I sincerely believe that the transition I proposed would be accomplished.

Roger Berg, sophomore, Skokie, Ill.

I would like to see a list of the books that will be used next semester published so that new or used books could be purchased any time or place a student wanted.

I don't think double cuts are too popular. Personally, I wouldn't mind losing a few days if we could get out of school about two weeks earlier.

I wish that a room would be set aside and filled with overstuffed chairs. Smoking would be permitted, and complete (no banging radiator pipes), absolute (no glee club or band practice), silence would be the only rule.

Dave Cunningham, sophomore, Milwaukee,

I cannot think of any major complaints, but I do have several minor points which I would like to see enacted. First, I think the varnished stumps between Science hall and the Rec hall are an eyesore and should be removed or blocked from general view by shrubbery. Second, I would like to see the fieldhouse painted some color other than pink. Finally, I feel the general cleanliness of the halls could be better, especially the washrooms, especially in Soifort

Puma sluggers win four from Marian, Aces

Tracksters fifth in ICC; lose to Valpo

Seroczynski, Keenan, 880 team place at ICC

The Puma track team was busy last week, meeting Valparaiso Tuesday and competing in the ICC meet at Butler Saturday. The team placed only fifth in the ICC, but despite this they had some of their best times of the season.

Four school records were smashed at the ICC meet as John Lau ran the high hurdles in 17.0 (old record 17.2), Jim Lucas turned 54.3 in the 440 (old record 56.0), Bill Keenan was clocked at 10:32.9 in the two mile (old record 11:48.0), and the mile relay team of Jim Lucas, Tom Ciskowski, Conrad Kruswicki and Lau sprinted the distance in 3:43.1 (old record 3:50.5).

Places in the ICC meet: Tom Seroczynski fifth in the javelin, Keenan fifth in the two mile, 880 relay team (Jim Crook, Vic Pariso, Jim Tuerff, and Schoenbaum) fifth.

The team was hurt with Schoenbaum, Seroczynski, and Kruswicki all competing with pulled muscles. Keenan's time of 10:32.9 was very close to the winning time last year and was one of the best times in the state this

The Valpo meet was a bad day for the Puma trackmen, who won only four of the sixteen events and lost 86-46. Vic Roos took the shot put with a throw of 40' 11%", Keenan won the two mile run in 11:19.6, the mile relay team, (Lucas, Ciskowski, Kruswicki, and Lau), placed first in

their event with a time of 3:49.2, and Jim Smith won the pole vault,

Schoenbaum was third in the 100 yd. dash at Valpo; Jim Tuerff was second in the 220 yd. dash; and Lucas was second and Ciskowski third in the 440 yd. dash.

In the distance events Keenan won the two mile and was third in both the 880 yd. run and the mile run. Tom Kroeger was second in the low hurdles and third in the high hurdles, and the mile relay team won their event. In the field events, Roos took the shot put, Smith was first in the pole vault and second in the broad jump, Seroczynski was second and Beam third in the javelin, and Jim McMahon was second and Hank Krigbaum third in the discus.

The trackman have only one meet left on the schedule for this season. On Saturday May 20 they travel to DePauw for the Little State meet.

Winning times in the Valparaiso meet: 100 yd. dash-10.7, Valpo; 220 yd. dash-23.6, Valpo; 440 yd. dash-55.5, Valpo; 880 yd. run-2:10.9, Valpo; mile run-4:59.4, Valpo; two mile run-11:19.6, St. Joe; high hurdles-18.3, Valpo; low hurdles-27.5, Valpo; mile relay-3:49.2, St. Joe; 880 relay-1:39.6, Valpo; shot put-40' 111', St. Joe; discus-112' 81/", Valpo; javelin-160' 6", Valpo; high jump-5' 6", Valpo; broad jump-19' 4", Valpo: pole vault- 9' 2", St. Joe.

Tennis team loses three straight; Butler, Indiana St., Ball St. win

By JIM FRANCIS

Coach Ray Regner's Puma tennis team played a full schedule last week meeting Butler Thursday, Indiana State Friday, and Ball State Saturday. The netmen were beaten in all the meets, losing to Butler 7-0, to Indiana State 6-1, and to Ball State 7-0.

In the Butler meet Frank Creel lost to Cass 6-1 6-2, Mike Mettler was beaten by Thompson 6-3 6-1, Skip Holland lost 6-2 6-1 to Orr, Tony Vasek was beaten 6-3 6-1 by Raymond, and John Sorg lost to Myers 6-0 6-0.

The doubles matches also went to Butler as Holland and Creel lost to Cass and Thompson 6-0 6-2, and Mettler and Vasek were beaten 6-4 8-6 by Orr and Raymond.

Tony Vasek won the only match for St. Joe in the Indiana State meet beating Bush 6-3 8-6. The other matches were all Indiana State as Sorg lost 6-2 6-1 to Lee, Creel was beaten by Buckalew 6-1 6-2, Mettler lost to Darling 6-1 6-1, and Holland was beaten 6-1 6-2 by Wessel.

In the doubles matches Creel and Holland lost 6-0 6-3 to Buckalew and Darling, and Mettler and Vasek were beaten by Lee and Wessel 6-2 6-0.

The Ball State meet was an exact duplicate of the Butler meet as the Pumas lost every match. Creel lost 6-0 6-0 to Cossell, Holland was beaten 6-0 6-0 by Hailess, Gallivan lost to Barcuss 6-0 6-2, Mettler was beaten by Benbow 6-0 6-0, and Vasek lost 6-1 6-1 to Graham. In an exhibition match, Al Nett was beaten 6-1 6-0 by Bigler.

Creel and Holland lost to Ball State's Graham and Benbow 6-0 6-1 in the first doubles match, and Mettler and Vasek were beaten 6-1 6-1 by Bigler and Habanananba in the second. There was also an exhibition doubles match which went to Ball State as Gallivan and Nett were defeated by Cossell and Polk.

It is obvious that the tennis team is having a bad season. This can be attributed to many causes, among these the fact that many of the team members are inexperienced, and most importantly the lack of outside practice. The team has been able to use the outside courts for practice only three times during the season. This definitely hurt the team.

conditions. Jim Dixon wins

be played under unlimited substi-

tution to enable coach Dwyer and

the Hillsdale coach to observe

their entire squads under game

Freshman Jim Dixon became the 1961 intramural table tennis champion by defeating defending titlist Bill Kirwen in three straight games, 21-14, 21-15, and 25-23, on May 10. Dixon earned a shot at the championship by beating Gene Ketchmark in the semi-finals, while Kirwen was winning over Mike Fitzmaurice.

In the doubles competition Dixon and Kirwen teamed up to win that championship on May 7 m three straight games by downing the team of Fitzmaurice and Den-

Score 52 runs on 42 hits; end losing streak; pull even at 6-6

By HUGH MARTINELLI

The baseball Pumas got back on the winning track last week by sweeping a double header from Marian 13-2, 3-2 Thursday and. then following up with a pair of wins over Evansville 17-15, 19-6 on Saturday. All the games were played at home.

St. Joe had their hitting clothes on as they pounded out 12 hits and 13 runs in the first game with the Marian Knight's. Hard throwing Art Voellinger allowed the Knights only three runs while pitching a fine four hitter, which gives him a 1-1 season record.

Voellinger proved to be no slouch with the bat either as he contributed three hits and scored two runs to help his own cause.

Leading the Puma attack were Crowley, Whitlow and Houlihan, who each picked up two hits. Whitlow smacked a long home run.

In the second game the Pumas squeaked out a 3-2 victory. Al Whitlow had two of the four Puma hits. A fine pitching performance by the Pumas' Tony Pacenti, Jim Hunt and winner Bob Decker allowed Marian only five hits.

The Evansville Aces were victims of the Pumas on Saturday as St. Joe epened up with a 25 hit barrage and 36 runs in handing the Aces a double defeat.

The first game saw the Pumas smash 13 hits and score a 17-15 victory. Big Al Whitlow hit safely four times and also scored four runs, thus continuing his bombardment of the oppositions' pitching One of his hits was a towering home run to right-center field.

Crowley and Budzielek each hit safely twice to aid the Puma cause. The Pumas' long ball hitting was exhibited with Budzielek, Kolesiak, and Houlihan all hitting homers. Five Puma pitchers saw action,

as Pacenti started, followed by

Voellinger, Moyer, Dougherty, and Crowley. Jim Crowley finished for St. Joe and picked up the win, his first of the year. The Aces pounded out 16 hits against the five Puma hurlers.

Continuing their bombardment in the second game the Pumas combined 13 hits and numerous Evansville errors for 19 runs. The Aces saw a lot of Jim Crowley throughout the afternoon as he led the Puma attack with three

Bob Jansey crossed the plate four times while picking up two hits. Two hits were also banged out by Bob Decker and Jim Woods in this game.

Versatile Puma captain Bob Decker, usually a third baseman, scattered 11 hits and allowed only six runs in going the distance for his second hurling victory of the week.

The Pumas have four games left on the schedule, which they hope to play, weather permitting. A double header with league leading Ball State at home on Saturday May 20 will be their last ICC games. An exhibition double header is also scheduled at Franklin college May 17.

The ICC standings as of Monday May 15: Ball State 7-1, De-Pauw 6-3, Valparaiso 4-3, Indiana State 4-4, Butler 2-4, St. Joseph's 2-4 and Evansville 0-6.

You're needed... just as your father and grandfather were. It's an obligation that a lot of qualified college men have to meet...that of serving your country, when and where you are needed.

And the Air Force needs college-trained men as officers. This is caused by the rapidly expanding technology that goes with hypersonic air and space flight. Your four years of college have equipped you to handle complex jobs. You have the potential to profit from advanced training...then put it to work.

There are several ways to become an officer. First there is Air Force ROTC. Another program. relatively new, is Officer Training School. Here the Air Force commissions certain college graduates, both men and women, after three months' training. The navigator training program enables you to win a flying rating and a commission. And, of course, there's the Air Force Academy.

An Air Force officer's starting salary averages out to about what you could expect as a civilian. First there's your base pay. Then add on such things as tax-free rations and quarters allowances, free medicaland dental care, retirement provision, perhaps flight pay, and 30 days' vacation per year. It comes to an attractive figure. One thing more. As an officer, you will become eligible for the Air Force Institute of Technology. While on active duty many officers will win graduate degrees at Air Force expense.

Why not contact your local Air Force Recruiter. Or write to Officer Career Information, Dept. SC15, Box 7608, Washington 4, D.C., if you want further information about the navigator raining or Officer Training School programs.
